Subject: house bill 4936

Please DO NOT pass house bill 4936. I was hit by a drunk driver. Leaving me without 1 arm and 1 leg. I have been fighting for over 8 years for a handicap accessible house. Also, to be retrained to go back to work. If this bill passes, I will never get into a house that I can start living in without having daily difficulties. Also, I'll never be able to go back to work, and be a contributing part of society. Along with these issues, I'll never be able to afford getting another arm, leg, wheelchair, etc.

I am only 1 person, but there are thousands more that are in the same position I'm in now. As accidents haven't stopped happening and I'm sure they never will. This list will grow. People to come won't get the care they need when the accident happens. Please for all of the disabled and for our medical field too. Put a stop to this bill.

Please feel free to contact me, if you choose to.

Thank you,

Cindi Calliea
